Subject: RE: FEMA levees go to FMDam.org for the story

The levee's in Oxbow that were removed this Spring were purchase under the FMA FEMA program. The recently approved National Flood Insurance Program allows for these lots to be repurchased. Currently, the plan is to have the levee's replaced yet this fall by the county under the provision in the Flood Insurance Program. There are additional properties in Oxbow purchased under the HMGP FEMA program that Hoeven's legislation was hoping to change. These lots, in Oxbow anyway, are nothing we would ever try to protect.
